

Deal Tree Health Centre PPG

Group meetings take place every one or two months at Deal Tree Health Centre. The purpose of the group is to enable the patients to influence the commissioning of healthcare services

We aim to help patients understand how the Practice/NHS works and to provide a forum for patients to collaborate and support the Practice.

The group also works in collaboration with PPG's from other practices in the locality to improve patient experience.

The meeting may agree and action improvements within the surgery and take external matters to the Clinical Locality Group and the Brentwood Patient Experience Group for further consideration. ■

Patient Participation Group

Our Patient Participation Group meets regularly to channel patients' views on non-medical matters and supports the Practice in providing the service we all need.

Why not join us?

If you would like us to share information about the Practice and ask for your views and comments please complete the form available at Reception.

Alternatively, if you are too busy to attend Patient Group meetings

We can still share information with you about the Practice and ask for your views from time to time if you complete the form available at Reception.
